Chrysanthemums

COLUMBIA

WONDERLAND NURSERIES

4 Miles From Richmond, Va. Ellerson Virginia Phone: Mechanicsville 2721

To Our Patrons!

FOR THE RETAIL CUSTOMER:

You may order 6 of a kind which would cost one-half the price of 12. No order will be accepted for less than 6 plants of a kind except where priced each.

FOR THE WHOLESALE CUSTOMER:

If you are in the flower business or in an allied trade you are entitled to WHOLESALE PRICES. No order will be accepted at wholesale prices for less than 25 plants of a variety.

DELIVERIES:

Rooted cuttings are usually available from January through August, depending on the varieties wanted. Place your order as far in advance as possible to assure proper delivery.

No order will be accepted for a total of less than \$5.00.

TERMS:

Our terms are strictly payment with order unless terms have been arranged. We will not ship C.O.D. unless one-half the amount is enclosed with order.

LOCATION:

We are located four miles from Richmond, Virginia, on the C. & O. Railway.

We can be reached by telephone anytime day or night by asking your operator to call Richmond, Virginia, and ask for Mechanicsville 2721.

ORDERS are accepted subject to conditions beyond our control. If your order cannot be filled to your satisfaction your money will be refunded, ending our responsibility.

We owe all our success to you. Thank you very much.

SINCERELY,

Wonderland Nurseries

ACTIVO

Profitable to USE . . .
Profitable to SELL!

ActivO restores new life, energy and bacterial action to weak and sluggish soils—improves even the best soils. Contains over a hundred different strains of beneficial micro-organisms (including NITROGEN-FIXING) as well as minerals, hormones, vitamins and biotical substances . . . Apply direct to soil, or merely apply to seed as you would an inoculant or seed treatment. Use it! Sell it!

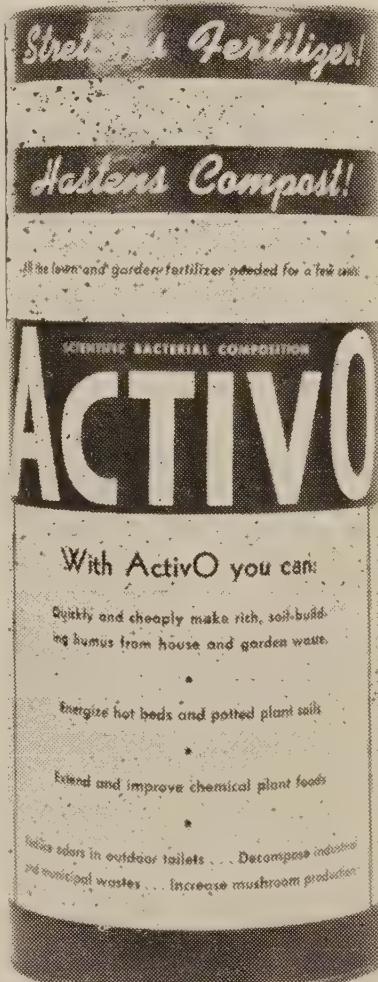

Makes compost quicker, easier, cheaper and better out of difficult materials.

Use even sawdust and chaff. Compost garbage and sludge without odor! These make the richest humus known to man!

See the magical difference it will make in weak, sluggish soils — just a few handfuls mixed into soil. It conditions, activates—adds life, energy and vitality. Try it on lawns and golf greens as well as for pot and garden soils.

Use ActivO to reduce odors in outdoor toilets—while it converts the waste into an ash-like fertilizer-humus—use it, too, to organicize chemical fertilizer, and make it go many times farther.

All organic — no chemicals! Nature, herself — amplified, and packed in a can! SEND NOW FOR ALL THE INTERESTING DETAILS.

Plant a little with each seed and see the difference in your plants—and the yield! Flowers, too, have better color.

Use ActivO to make your own organic fertilizer and liquid manure — quickly (complete directions tell you how to do this and dozens of other unusual garden tricks.) Use it in hot beds or to make hot beds without manure.

ActivO is a rich, black velvety humus fortified with billions of Nature's own beneficial microorganisms, hormones, vitamins, minerals and the mysterious biotics, Nature's balancers.

Its cost is amazingly little. And it's good for your compost, good for your soil, good for EARTH-WORMS.

"NEVER SAW SUCH BLOOMING"—writes gardening authority who used ActivO in potting soil for fuschias . . . Another—an amazed amateur horticulturist and researcher—stopped spindly growth and wilt trouble, and improved blooming. You, too, can USE ActivO to your advantage . . . and SELL it to your profit.

No. 50 size, energizes up to 20,000 lbs. potting soil, etc., or treats 6 tons of compost—\$11.95.

No. 25 size, energizes up to 10,000 lbs. soil; 3 tons compost—\$6.99.

No. 7 size, for 2500 lbs. soil or 1350-1700 lbs. compost—\$2.00.

No. 2 size, for 800 lbs. soil or 225-250 lbs. compost—\$1.00.

BREWERY

THE
ORIGINAL!

Hormone Spray and Rooting Concentrate HORMEX

FOR ALL HORMONE SPRAY APPLICATIONS—FOR ROOTING CUTTINGS, BULBS

WHAT IT IS: A concentrated liquid solution of activated hormones and other growth substances.

WHAT IT DOES

ROOTING CUTTINGS and bulbs—Roots faster and better; goes many times farther; easier to use—not only because it's a superior composition, but because also it's a LIQUID. The \$4.95 size make 50 to 800 gallons rooting solution (enough for millions of cuttings!) Just dip or soak—and put in rooting medium. Because it's liquid, HormeX can be adjusted to root the most delicate up to the largest, hardest, most woody materials. If desired, cuttings may be placed in medium first, and then beds or benches flooded with HormeX solution.

BLOSSOM SETTING—a term commonly used to describe the multiple job HormeX does in stopping blossom drop, and **setting more blossoms into more fruit or seed**—for bigger yield, earlier and more choice . . . with TOMATOES, BEANS, BERRIES, ALFALFA, CUCURBITS, and dozen of other crops, including corn. **Just spray over the whole plant**, as you would with any spray, during the flowering period. Costs as little as 25c per acre. The \$4.95 bargain size makes 200 gallons of blossom-set spray.

- **Stop drop** of fruit, leaves, blossoms, and needles. (Holds apples, pears, and other fruit on tree until ripe.)
- **Extends vine growth**, blooming, and fruiting of beans and other crops when used repetitively.
- **Makes SEEDLESS** tomatoes and other vegetables if desired (by using stronger solution.)
- **Cleans and beautifies**—makes house-and-garden-plants look healthier, grow healthier. Aids both top and root growth.
- May be used for liquid **seed treatment** (with potatoes, for instance) where lush root growth is desired.
- **Quick-thins** fruit such as apples and pears, for better size and grade, by means of simple blossom spray in spring. Saves costly hand and brush thinning.
- **Feeds foliage** of fruit trees and other vegetation—encouraging better leaf production processes, giving deeper green color and healthier appearance. Just spray periodically. May be combined with other sprays.

WHAT IT COSTS: As little as 20 cents an acre! At standard strength, a single 1-oz. bottle makes 100 gallons of spray or rooting solution—enough for 3 to 12 acres, depending upon type of spray equipment. A Big Four Silver Label bottle, at a retail price of \$4.95, makes 50-800 gallons. HormeX can be used periodically from seed to harvest, **profitably**. Mixes with insecticides and fungicides—saves application costs.

WHY YOU'LL WANT TO USE AND SELL IT: HormeX not only does more jobs better, the buyer also gets more for his money. High concentration means low weight, low shipping costs, ease of handling.

Hormone magic! The culmination of all that's commercially practicable in hormones

"This is what we looked for, in our rooting work, for ten years. We really do not know, now, how we got along without it.

"Here at Wonderland we soak cuttings 20 to 30 minutes. Nursery stock or hardwood cuttings take stronger solutions or longer soakings."

Please DO NOT ACCEPT SUBSTITUTES. There's nothing just as good; nothing "just like" HormeX. Remember—you can safely use HormeX as a whole plant spray for setting blossoms. Don't confuse it with less serviceable or hobby preparations. And note the GALLONAGE . . . it's more economical. TEN years in commercial use. Proved!

"A lot of plant hormone power in a small bottle!"

PRICES:

For Home Gardens

Gold Label, makes 2 to 30 gallons—\$1.00

For field, greenhouse and orchard

Silver Label, 12 to 200 gallons.....\$2.00

Big Four Silver Label, 50 to 800 gallons \$4.95

Liberal discounts

HormeX \$1.00 and \$2.00 sizes are packed 12 to a colorful display carton; 5 cartons to the case.

DUST: HormeX is also available in dust form — manufactured to order for the specific crop. Ask for prices—where spray equipment is not available.

HormeX is the **ONLY** hormone spray formulated to do so many things so well. None of the imitations have ever been able to match it. None gives so much for the money. The activated liquid form is always "in solution"—no fussing with powders. Quick penetration.

WONDER GARDEN SPRAY

For Flowers, Vegetables and Greenhouse Use

- Safe . . .
- Efficient . . .
- Economical . . .
- It Controls As Well As Kills . . .
- Will Not Burn or Discolor . . .
- Easy to Dilute. Just add water and it will stay at the proper suspension. No agitating necessary.

8 oz.	\$ 1.00
Quart	\$ 3.00
Half-Gal.	\$ 5.75
Gallon	\$10.75
In 5 Gallons	per gal. \$10.25
